

# Maximize your take-home income with a Flexible Spending Account

**Your flexible spending account (FSA)** is a special account that allows you to use your pre-tax dollars to pay for eligible medical expenses. This means you can save money on your taxes while also covering your medical needs. For example, you can use your FSA to pay for prescription drugs, dental care, vision care, and more. The maximum amount you can contribute to your FSA is \$2,500 per year. This is a great way to reduce your taxable income and save money on your medical expenses. To learn more about your FSA, visit [www.fsa.com](#).
